deugro Establishes Specialized Heavy-lift Equipment Company in India

Mumbai, India, March 23, 2023 – deugro has established DHP Heavylift Solutions Pvt. Ltd. to operate own barges and specialized trailer equipment in India. The initial investment refers to two barges as well as four Goldhofer heavy duty modular trailer combinations, each with 6 axle lines (PST/SL-E), that will enable deugro to significantly participate in the development of the emerging Indian market.

deugro Projects (India) Pvt. Ltd. has become a market leader in project forwarding in India. Challenging, complex shipments and projects involving overdimensional cargo (ODC) and heavy lift shipments along the coast and into the hinterland have become day-to-day business and always require unique transport solutions.

The smaller of the two barges will allow for reaching far into the Indian inland waterway network, which provides significant advantages to clients.

India remains an emerging market with enormous potential for the coming years and strong plans for a greener future. The investment into own equipment underscores deugro's commitments towards clients.

The loading onto *Chandra Pluto*, recently executed for a Refinery Project.

The cargo contained units weighing up to 1,060 metric tons.

About deugro

deugro is a highly specialized project freight forwarder with a strong focus on turnkey logistics solutions for various industries. We have a proven track record in successfully executing projects of any magnitude, even under the most challenging conditions and requirements.

deugro is actively involved in working with clients to deliver value-added logistics solutions, especially for low-carbon projects, to support an immediate and profound strategic transition to sustainable energy sources.

Thanks to a vast network of more than 70 company-owned offices in over 40 countries, deugro leverages comprehensive and in-depth expertise around the world to deliver on its promise. Clients benefit from global coverage and local expertise at every major industrial hub.

deugro was founded in 1924 in Frankfurt am Main, Germany and is a family-owned enterprise in its third generation, with nearly a century of experience in the logistics industry. Today, deugro is an independent company of the deugro group, which is comprised of several companies focusing on project freight forwarding, ocean transportation of heavy lift and project cargo, transport and marine engineering as well as specialized transportation assets.
