## deugro Wins at BIFA Awards 2024

**London, UK, January 20, 2025 – At the British International Freight Association (BIFA) Freight Service Awards 2024, deugro won the Project Forwarding Award.**

The annual BIFA Freight Service Awards, which comprise all together nine business categories, honor high standards and professionalism to recognize special achievements in different sectors of the industry.

At this year's award ceremony, held on January 16, 2025, in London, UK, deugro was recognized with the Project Forwarding Award for their complete all-in-one solution to successfully deliver 106,680 FRT of cargo to a remote construction site on an Island in northern Papua New Guinea.

According to BIFA, "the judges were impressed by deugro's willingness to go above and beyond and provide seamless communication to ensure the successful delivery of a demanding project."

"Encompassing the remotest construction sites, severely limited infrastructure, large volumes of the most diverse cargo, coordination and training of an over 1,100-person on-site workforce, the strictest HSE requirements, as well as crocodiles and snakes—this project had everything needed to make it a unique project. The prestigious award is a great honor for all those involved—not only for our local deugro teams, but also for the teams of our client and those of our partners," said Paul Booth, Regional Director Oceania, deugro.

"This Project Forwarding Award is a great testament to a fantastic piece of teamwork under the most challenging conditions and to our dedicated team's unwavering commitment to delivering seamless and efficient logistics solutions to our clients," added Ben Cunnington, Country Manager UK, deugro.
