deugro Expands Presence in Poland

Warsaw, Poland, February 25, 2026 – Continuing its growth strategy and to further expand its presence in the Polish market, deugro opened a new branch in Warsaw, Poland on January 1, 2026.

The new branch reflects deugro's ongoing positive business development and its long track record of successfully completed projects in Poland. Further improving its client proximity, deugro Warsaw will provide the full scope of project freight forwarding and logistics solutions to local and global clients from all major industries, including energy, wind, infrastructure, oil and gas, petrochemicals, and mining—whether to or from Poland.

Together with the opening of the new office, deugro is welcoming several new colleagues to the Warsaw team: Tomasz Kwapis as Country Manager Poland, Michal Tlatlik as Project Manager, and Marta Zawada as Senior Project Coordinator. All three bring extensive experience and expertise in project freight forwarding within the Polish market.

"I'm glad to be joining deugro Poland, and I'm especially excited about the opportunity to support and deliver the largest and most challenging projects in Poland. In this context, I'm very much looking forward to collaborating not only with my local Polish colleagues, but also with deugro's global and unique network of project logistics experts. I'm confident that the addition of deugro Warsaw to the network will bring added value—not only for the business in Poland, but also for our entire region," said Tomasz Kwapis, Country Manager at deugro Poland.

"The opening of our new office in Warsaw is a significant milestone as we strengthen our presence in the Polish market by establishing a second branch to complement our existing office in Gdynia," said Matias Setala, President – Northern & Eastern Europe at deugro.

The contact details of the new office are:

About deugro

deugro is a highly specialized freight forwarder with a strong focus on turnkey logistics solutions for industrial projects. We have a proven track record in successfully executing projects of any magnitude, even under the most challenging conditions and requirements.

deugro focuses wholly on identifying and solving clients' specific needs with unique tailor-made solutions that fulfill all requirements. To deliver the best in both cost and performance, deugro serves as an extension of its clients in their respective supply chains. It provides ocean and inland waterway freight services, road and rail transportation as well as airfreight to almost any destination.

Thanks to a vast network of more than 70 company-owned offices in over 40 countries, deugro leverages comprehensive and in-depth expertise around the world to deliver on its promise. Clients benefit from global coverage and local expertise at every major industrial hub.

deugro was founded in 1924 in Frankfurt am Main, Germany and is a family-owned enterprise in its third generation, with over a century of experience in the logistics industry.
